Dear Hiring Manager,

I am currently a student at the University of the Incarnate Word and pursuing a degree in 3D Modeling. I was very excited on hearing about this open position. I am a very passionate and creative person when it comes to this field, and I would love to be able to learn from your company.

In my degree I have established a very strong understanding of the software's Maya, ZBrush, Substance Painter, Unreal Engine, and Marmoset. I also have learned about the concepts of modeling objects for real-time rendering, baking, optimization, texturing, rigging, and I have practiced these concepts with in-class and personal projects.

Thank you for considering my application. I am looking forward to the possibility of working at Epic Games and contributing to your success.

Sincerely,
Annalisa Echeverria
