

JESICA RIOS

3D ARTIST

February 21, 2025

Dreamscape Learn
5730 Buckingham Pkwy. Culver City, CA
90230.

Good Afternoon,

I am pleased to submit my application for the Prop Artist position at Dreamscape Learn. As a committed 3D artist with a profound enthusiasm for video games, I believe that my skills and creative insights position me as a strong candidate for this role. I have developed a diverse range of props across various gaming genres, applying my comprehension of design principles and meticulous attention to detail to create immersive environments.

In my current position at the University of the Incarnate Word, I engage in collaborative efforts with teams to deliver high-quality assets within established timelines. My key competencies include considerable experience in the design, modeling, and texturing of high-quality 3D props. A notable project I completed was a Chip and Dale figurine, which is showcased on my ArtStation profile. This project, inspired by the aesthetic of the Chip and Dale animated series, involved translating my 2D artistic vision into a comprehensive 3D form using ZBrush for sculpting, alongside applying textures created in Adobe Substance Designer.

Furthermore, I have developed a set of bunnies as another project featured on my ArtStation profile. For this endeavor, I utilized ZBrush for the high-poly modeling, Maya for the low-poly model and UV mapping, and Substance Painter for the hand-painted textures. Additionally, I employed Blender for rendering and experimented with an online shader to achieve a cinematic appearance. This project significantly enhanced my skill set and provided me with invaluable experience.

I am confident that my technical expertise, collaborative mindset, and passion for video games would enable me to make meaningful contributions to Dreamscape Learn. Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experience may benefit your team.

Best regards,

A handwritten signature in black ink, appearing to read 'Jessica Rios', with a stylized flourish at the end.
